1. General Notes:

- a. These monthly Notices cover Oman Charts (prefixed 'OM') and Oman Nautical Publications (prefixed 'ONP') published by the Oman National Hydrographic Office (ONHO) on behalf of the Ministry of Transport, Communications and Information Technology, which is the Authority responsible for issuing Notices to Mariners. Temporary Notices are suffixed (T). This monthly summary is published in English.
- b. Authorities and Individuals are requested to report to the Ministry of Transport, Communications and Information Technology, with a copy to the ONHO, of any new dangers to Navigation, changes or defects in Navigational Aids (lights, buoys, radio signals, etc.) or corrections to charts and publications produced by the ONHO or by other nations. Such information affects the safety of international shipping, so is always of great value. The ONHO will forward corrections to other nation's products to the authorities responsible for them (see the reporting form).
- c. This summary is protected by Sultanate of Oman copyright. However, the Notices herein may be copied and redistributed without permission in the interests of the safety of Navigation.
- d. All corrections to Oman charts are listed separately for each chart affected. The small corrections are written after the year of the Oman Notices to Mariners number, e.g.,
(for OM 1): **2005**: 4 - 16 - **2006** - 3 -13- 14

HYDROGRAPHIC NOTE

(Forwarding information for Omani Charts and Publications.)

INSTRUCTIONS:-

1. Mariners are requested to notify the Oman National Hydrographic Office, (address in page 1), when new or suspected dangers to navigation are discovered, changes observed in Aids to Navigation or corrections to publications are seen to be necessary.
2. This form and its instructions have been designed to help both the sender and the recipient. It should be used, or followed closely, whenever appropriate.
3. Paper Charts: A copy or a cutting from the largest scale chart is the best medium for forwarding details, the alterations and additions being shown thereon in red. When requested, a new copy will be sent in replacement of a chart that has been used to forward information.
